EDUCATION

University of South Carolina - Columbia, SC

Expected: May 2028

Bachelor of Science in Computer Science

GPA: 4.00

- President's List (Fall 2025, Spring 2026) - Awarded to students who maintain a 4.0 GPA for the semester.
- Palmetto Fellows Scholar - Awarded to South Carolina students based on academic performance, class rank, and standardized test scores.

EXPERIENCE

University of South Carolina, Columbia, SC

August 2026 - PRESENT

Garnet AI Foundry Student Outreach Assistant

- Coordinate outreach initiatives, identifying opportunities to expand engagement across campus students, staff, and faculty.
- Facilitate informational sessions for University 101 courses, introducing first-year students to university-supported AI tools, services, and resources.
- Initiated outreach to 15+ student organizations to establish partnerships and develop tailored programs that build AI fluency across diverse academic and professional disciplines.

DataAnnotation, Remote

April 2026 - May 2026

AI Response Evaluator

- Evaluated 100+ AI-generated responses across 10+ models and projects, assessing text- and image-based outputs for accuracy, relevance, bias, clarity, and adherence to evaluation criteria.
- Analyzed model performance on logical reasoning, problem-solving, and multimodal tasks, providing detailed rationales and evaluations to identify higher-quality responses.

Dutch Fork Middle School, Irmo, SC

August 2024 - May 2025

STEM Outreach Instructor

- Delivered lessons on automation, robotics, and introductory AI concepts to 52 middle school students across 3 Automation & Robotics and Design & Modeling classes.
- Taught programming fundamentals and the scientific method through real-world applications in a ~10-week field experience.
- Designed and presented a comprehensive digital portfolio to my peers, documenting classroom observations, student engagement, lesson designs, and professional reflections.

PROJECTS

TSTR – AI Tester Collaboration Platform

January 2026 – May 2026

Independent Software Project

- Conceptualized an original platform connecting AI developers with diverse human testers to facilitate user testing and feedback during development.
- Developed an interactive, multi-screen Python prototype, planning user workflows through research and implementing application-style navigation across core platform features.

SKILLS

Programming: Python, Java, C++, JavaScript, HTML

Tools & Skills: GitHub, GitHub Pages, Onshape (3D CAD), AI Fundamentals, Algorithmic Thinking, Technical Communication
